

NEW PISTOLS FOR POLICE.

The Force Now Being Equipped with a Model Gun to Shoot Bad New Yorkers.

The new police pistols have arrived, and no man can say that New York has now no armed force.

The detail is beginning to play a prominent part in the police arrangements of Greater New York, and as a weapon for prompt use against the enemies of society it has received the sanction of the Police Commissioners.

The present Board is made up of men whose descent or personal experience has taught them high regard for powder and ball as an agent of suasion.

Where the "copper" of twenty years ago practised with Indian clubs, dumbbells and boxing gloves, the bluecoat of to-day is trained in the use of the pistol. And the most recent and most rigorous of the police

Eighty Regiment armory has been obtained for the pistol practice, and the policemen are trained to shoot quickly at a target in the form of a dummy man.

"The instructions are to aim at the legs and arms, and it is intended that the policeman shall be trained to shoot so as to maim a desperate burglar in an emergency, instead of killing him. In a number of cases in which policemen have killed burglars who resisted arrest the fatality was due more to bad marksmanship than to a desire to kill. A policeman has tried to shoot the burglar in the leg, and the bullet has gone through the body, or a shot aimed at an arm has gone through the head. Some policemen have hurt persons when shooting at rabid dogs in the street on account of bad marksmanship. I think that better marksmanship would enable the policeman to cripple dangerous law-breakers without killing them, and make the shooting of a dangerous animal in the streets safer for the public.

"We cannot expect good marksmanship without good weapons, and for that reason many members of the force were required to buy revolvers of a standard make. There was a rule that all policemen should have revolvers of uniform calibre, using centre-fire cartridges, so that in case of a riot cartridges could be distributed rapidly; but I found that many of the policemen had cheap revolvers which were faulty in construction, or out of order on account of neglect, and that the weapons were more dangerous to the men who carried them than to anybody else. I was responsible

ODD FACTS ABOUT PINS.

Millions of Them and All Kinds, but --- Where Do They All Go To?

There is a rush in pin patents—not ordinary pins, but it is understood, but hairpins and safety pins. Applications for exclusive rights in new styles of hairpins average fifteen a week; yet there is not a satisfactory pattern on the market. That is why inventors are still trying to suit the women folks on this point. There is nothing the matter with the conventional safety pin, though ingenious persons are continually trying to improve on it. It was just what it is now twenty-five hundred years ago. Plenty of specimens, with the familiar spring and catch, have been dug up out of the ruins of old Rome, and still more ancient Etruscan cities. Patents, by

MUNYON CURED These People

SIX OF YOUR NEIGHBORS Out of the Vast Number Who Are Testifying Daily, Tell of the Great Healing Powers of Munyon's Improved Homeopathic Remedy.

CURED OF RHEUMATISM

Mr. J. W. Baldwin, 508 East 123d street, New York City, says: "Munyon's Home Remedies having done me so much good, I can recommend them to any one crippled with rheumatism, as I have been for three years. In that time I had four different doctors, who failed to do me any good, yet after using only one-half vial of Munyon's Rheumatism Cure I was like a new man, and to-day can report a perfect cure as the result of this wonderful remedy."

CURED OF KIDNEY TROUBLE

Mr. R. S. Blackwell, 240 East 24th street, says: "Last Spring I sent for a bottle of Munyon's Kidney Cure. I had been troubled with very severe pains in the groin and could get no relief. I tried the pellets and have not had a return of the pain since."

CURED OF CATARRH

Mr. G. D. Weeks, 138 Liberty street: "I tried the catarrh treatment given by so-called specialists, and was just as bad off in the end as when I began. My throat was filled with mucus and I was constantly annoyed by difficulty in breathing and pressure in the head. I was persuaded to try Prof. Munyon's New Method, and was astonished. Relief was immediate, and now I am completely cured. I know by my own experience that Prof. Munyon can cure the worst form of catarrh."

CURED OF DYSPEPSIA

H. Schwartz, Jr., 88 East Third street, New York City, says: "I was a great sufferer from dyspepsia. My symptoms were bad taste in the mouth, dizziness, vomiting, loss of appetite and distress after eating. Munyon's Dyspepsia Cure made a complete cure of all these symptoms. Neither of them does the work to please the women. Some hairpins have been made rough and others wriggle in various ways; but they are inefficient. The latest hairpin, patented last June, has its points covered with a peculiar woolly fibre, to keep it from slipping. The factories of Birmingham, England, produce thirty-five million pins daily. Each machine turns out two hundred finished pins a minute, cutting the sections of wire, flattening the ends for heads by means of little hammers, and inserting them into the papers which are to hold exactly so many apiece, in a given number of rows. What becomes of all the pins is a mystery. During the reign of Henry VIII, there

CURED OF LIVER TROUBLE

Mr. Myers, 1831 Third avenue: "I was so weak from stomach troubles that I had to lie down nearly all the day. A dozen allopathic physicians treated me, but their strong drugs only made me weaker. Professor Munyon's Stomach and Liver Remedies cured me in a few days."

CURED OF ASTHMA

Mrs. Kate McDonald, 116 East 123d street, says: "I suffered with asthma for thirty years and tried many remedies in vain. Finally I heard of Munyon's Improved Homeopathic Remedies and began taking the Asthma Cure. In a few weeks I was completely cured."

A separate cure for each disease. At all druggists, 25 cents a bottle. If you have Catarrh or any Throat or Lung complaint, call and receive a free trial local treatment. We positively cure Catarrh. Personal letters answered with free medical advice for any disease. Eminent doctors at your service free.
